

CHAPTER 13 GENES AND CHROMOSOMES

Get the Big Picture

Study the picture. Then answer the questions.

A DNA molecule is similar in shape to a ladder.

- How many types of nitrogen bases does DNA have? _____
Name them. _____, _____, _____, _____
- What are the sides of the DNA ladder made of? _____
- What are the steps of the DNA ladder made of? _____
- What kind of bonds hold the chains of building blocks together? _____
